

***Peace of Mind - Check your Electric Fence while on Holiday!***

Did you know that you can go on holiday and still be in control of your electric fencing system? The latest **Red Trout IP Energisers** offer this facility. All that is required is that the **IP Energiser** is in a place that has Wi-Fi or 3G/4G access. Once you have downloaded the App to your mobile phone (iPhone or Android) and set up your **Red Trout IP Energiser**, you can check the voltage on your fence, switch the **IP Energiser** off and on from anywhere in the world and receive instant messages if the minimum voltage you programmed on your mobile phone has fallen below this limit. Very effective but easy!

There are three **Red Trout IP Energisers** available:

- **LIMB80 IP**    8 Output Joules = 80 km of fence            at \$ 695 incl. GST
- **LIMB120 IP**   12 Output Joules = 120 km of fence        at \$ 815 incl. GST
- **LIMB160 IP**   16 Output Joules = 160 km of fence            at # 990 incl. GST

If you already have good quality energisers but would like to have the Wi-Fi facility, we can offer you our latest development, the **Red Trout IP Monitor**. The **IP Monitor** allows you to monitor your electric fences the same way as the **IP Energisers** do. You install it on the circuit just after your energiser. If you want to split up your farm into two or more subdivisions, the **IP Monitor** is the right piece of equipment to do this. You require one **IP Monitor** for each subdivision. There are two different models available:

- **IP MONITOR (16 OJ)**            @    \$ 398.50 incl. GST    \$ 346.50 excl. GST
- **IP MONITOR (36 OJ)**            @    \$ 488.50 incl. GST    \$ 424.80 excl. GST

*As indicated one model can only be used with energisers that do not exceed **16 Output Joules or 24 Stored Joules** whereas the second unit can handle energisers **up to 36 Output Joules or 54 Stored Joules**. The set-up of this system is easy as you will receive a very detailed instruction manual.*

*Make your life easier with technological improvements only available from **Red Snap'r!***

*Happy farming!*

*Your **Red Snap'r** Team*
