Self-Contained Solar Powered Energisers

25 years ago we launched our first energiser which was solar powered. Based on this model we developed our very successful electric fencing business. Today we have the pleasure to introduce to you a new range of Solar Energisers that have more power and contain the latest electronics.

That is what the new range looks like

LIS5

Rated at 0.12 Output Joules this energiser can power up to 3 km of fence line. Ideal for grazing and smaller Lifestyle farms

\$ 268.50

LIS15

Rated at 0.25 Output Joules this energiser can power up to 6 km of fence line. Ideal for Lifestyle farmers and backup unit for larger farms

\$ 410.00

LIS30

Rated at 0.5 Output Joules this energiser can power up to 10 km of fence line. Ideal for larger farms and Lifestyle farmers

\$ 495.00

*All units are available ex stock. Courier charges for purchases over \$ 300 are covered by **Red Snap'r**. These energisers are covered by a two-year warranty, including lightning strike, provided the fences are protected by lightning diverters.*

Happy Farming!
